Road deaths are one of the preventable ways of death..... The Australian Crash and Fatalities dataset will be used to determine many different comparisons between Years, Months, Time of day, Vehicles, Type of crashes and demographics. With this information we are then able to assess road fatalities in Australia and see if there are any trends in crashes in Australia.

Optional: Interesting to note holidays (Christmas, New Year & Easter) vs. Grand Final days myths of double demerits, whether this might affect fatalities (?).

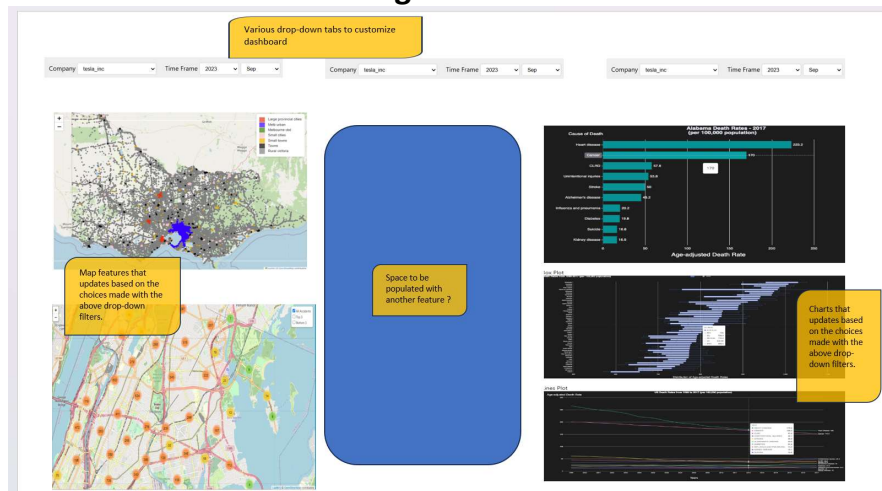

- A link to your dataset(s) and a screenshot of the metadata, if it exists.

[Project3_Gr7/Master Folder at main · pkrachakonda/Project3_Gr7 \(github.com\)](https://github.com/pkrachakonda/Project3_Gr7)

- Three or four screenshots of relevant, “inspiring” visualisations that show your creative ideas

- A sketch of the final design

- A link to the primary GitHub repository where you'll be housing your work
